Activity - Service to Client Request

LATEST SUBMISSION GRADE

100%

1. Click the link below to open the interactive activity.

1 / 1 point

Complete the activity and answer the questions below.

5.1.2.2.html

Refer to the activity. What is common between all of the protocols and services listed in the activity?

- ☐ They can only be enabled on PCs.
- ☐ They all must be enabled to allow the host to connect to the Internet.
- ☐ They only function over the Internet.
- ☒ They all belong to the TCP/IP protocol suite.

Correct

This is correct.

2. Refer to the activity. Which three protocols are associated with sending, receiving and processing email between a client and a server? (Choose 3.)

3 / 3 points

☐ HTTP

☒ POP3

Correct

POP3 is used by email clients to retrieve email and attachments from a remote server.

☒ IMAP

Correct

IMAP is used by email clients to retrieve email and attachments from a remote server.

☐ DNS

☒ SMTP

Correct

SMTP sends email messages and attachments from clients to servers and from servers to other email servers.

3. Refer to the activity. What protocol is used to transfer information between web clients and servers?

1 / 1 point

☒ HTTP

☐ FTP

☐ DHCP

☐ SMTP

Correct

HTTP is used.
